**Dear Parents,**

It's hard to believe that this is the last newsletter of the year. It has been a very fun year, and I've enjoyed teaching your child. Please have your child spend at least 10 minutes a few times a week reviewing multiplication and division over the summer. A little bit of effort goes a long way in making a smooth transition to 5<sup>th</sup> grade. **If you have not done so, please send in two paper grocery bags per student.**

**Language Arts-** We will have fun with Fairy Tales this week. Dr. Jackie Arnold, an education professor at the University of Dayton, has been conducting special reading activities with fourth grade.

**Science-** We did special activities with levers and inclined planes.

**Ohio** –Students did a fantastic job at the Ohio Craft Fair! Thanks for all your help.

**Math-**Chapter 11-Perimeter, Area, and Volume. I will introduce these concepts over the next two weeks.

**Religion-** Students learned about mortal and venial sins. We discussed how vices can lead toward sin.

*Have a blessed and safe summer!*

*Mrs. Greco*
